

# Pooley Bridge

## Newsletter

Site Newsletter No.5 – Jan 2019

## Introduction

Welcome to the fifth newsletter, keeping you up to date with the design and construction of the new Pooley Bridge in Cumbria.

This is the Fifth edition of a series of newsletters, for local residents, businesses, tenants and visitors who live and work in the area in and around Pooley Bridge.

These newsletters will provide you with information on the different phases of this project, including changes to access arrangements during the course of the development.

## Programme

Eric Wright Civil Engineering (EWCE) and Cumbria County Council continue to make good progress as we start a very important year for all concerned with the Pooley Bridge project.

At our recent engagement, held on Wednesday 16<sup>th</sup> January, our design partners GHD updated the audience on the current design. We have included some illustrations of the finished design on the following pages. Furthermore, I presented our first draft traffic management road closure plans. These plans showed the all important road closure drawings,.

Continues on the next page...

## Key Design Dates

Start of design phase:

**23.04.2018**

Completion of design phase:

**01.02.2019**

## Save the date:

Next stakeholder meeting  
at Pooley Bridge Community Hall:

**20.03.2019**

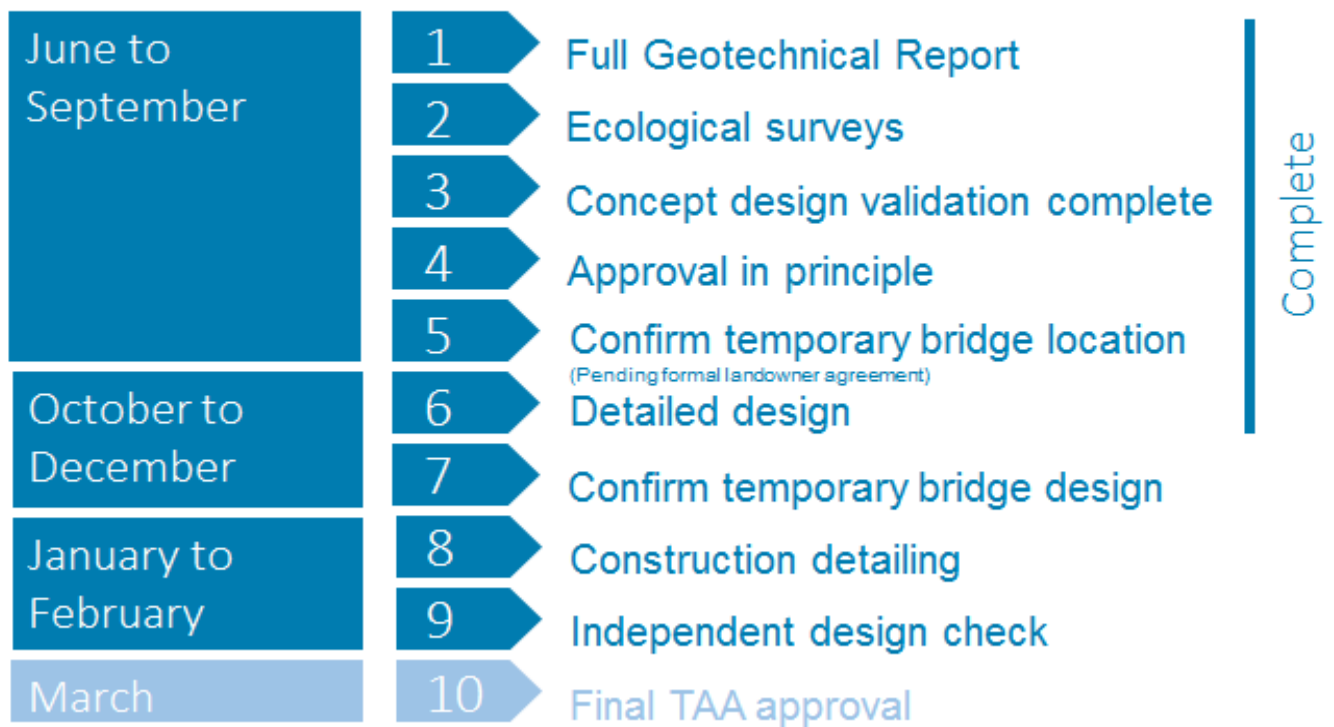

## Programme Continued

diversion routes and signage locations. The audience provided valuable comments on the night and these are now being reviewed and where practical will be incorporated into future traffic management drawings that will again be presented throughout the upcoming meetings to ensure we get this key aspect of the project right.

Finally we continue to have regular discussions with land agents and landowners within the community to secure the elements of land that are required to facilitate this project. We hope to finalise agreements within the near future but please be assured we are thinking practically about the community and their visitor's throughout this process.

Antony Mulligan, EWCE Senior Project Manager

## Eric Wright and GHD Supporting Cumbria

### Eric Wright CSR

The Eric Wright Group are committed to helping the Pooley Bridge community as much as they can.

With this in mind, we have been working with our company Education Coordinator at Bamber Bridge.

As part of our operational KPIs we will be looking to link in to local primary schools to deliver health and safety talks to raise awareness of the dangers on a construction site, together with site visits so they can see what really goes on a construction site.

Working with our Careers Ambassadors, we will also be contacting local schools and colleges to arrange careers events including speed networking, team building skills and mock interview sessions.

### Community Action Fund

Do you have a project or community organisation? Would £250 help your cause or can our site team get involved? If so, we want to hear from you!

### Newbiggin Village Hall

In our last newsletter you may remember we had been asked to assist with the removal of some rubble from Newbiggin Village Hall. This proved to be one of our smaller 'projects' of the year with only a couple of wheelbarrows of rubble being removed....., as the old saying goes, every little helps!!
